

KND 3-12x50

SNIPER SCOPE

GENERAL FEATURES

KND 3-12x50 is designed for long-range precision shooting with a 3-12x magnification range and a 50mm objective lens. Its aerospace-grade aluminum body and anodized finish provide high durability. Low-dispersion optical glass and anti-reflective coating deliver clear, true-color images, while an 11-level illuminated reticle facilitates aiming in low-light conditions.

A specialized turret mechanism and side parallax adjustment ensure precise and reliable targeting. Tested according to MIL-STD-810 standards, the system is waterproof and shock-resistant, making it suitable for professional use.

SPEC SUMMARY

Usage	Standalone
Field of View	6.7° (3X) x 1.8° (12X)
Eye Relief	80mm
Optical Magnification	3-12X
Objective Lens Diameter	50mm
Reticle	MIL-DOT
Environmental Standards	MIL-STD 810G-H

KND 3-12X50

MAGNIFICATION
3X - 12X

WEIGHT
<920g

DIMENSIONS (mm)
350 x 90 x 75

*A tolerance of ±10% applies to all parameters.
