

KND 5-25x56

SNIPER SCOPE

GENERAL FEATURES

KND 5-25x56 is optimized for long and ultra-long-range shooting with a 5-25X magnification range and a large 56mm objective lens. Its one-piece aerospace-grade aluminum body ensures maximum durability and field reliability.

Low-dispersion optics and anti-reflective coatings provide superior clarity and accurate color reproduction, while the 11-level illuminated reticle enables effective aiming in low-light conditions. Zero-stop, high-precision turrets and side parallax adjustment deliver the accuracy required for long-range engagements. Tested according to MIL-STD-810 standards, the KND 5-25x56 is waterproof, shock-resistant, and fog-proof, making it a reliable high-performance daytime optic for advanced shooters and snipers.

SPEC SUMMARY

Usage	Standalone
Field of View	0.86° x 3°
Eye Relief	80mm
Optical Magnification	5X - 25X
Objective Lens Diameter	56mm
Reticle	MIL-DOT
Environmental Standards	MIL-STD 810G-H

KND 5-25x56

MAGNIFICATION
5X - 25X

WEIGHT
<1.25kg

DIMENSIONS (mm)
395 x 90 x 75

*A tolerance of ±10% applies to all parameters.
