

BIN-20x80

TACTICAL DAYTIME OBSERVATION BINOCULAR

GENERAL FEATURES

BIN-20×80 is a military-grade binocular designed specifically for outdoor use, delivering clear images, a wide field of view, and exceptional durability. Featuring 20× magnification and 80mm objective lenses, it enables highly detailed long-range observation, making it ideal for both stationary surveillance and tracking moving targets.

Equipped with multi-coated optics for natural color reproduction and high contrast, the BIN-20×80 provides excellent image quality in demanding environments. Its waterproof construction and durable natural rubber armor offer superior protection against impacts and harsh environmental conditions. Like all models in the series, the optical system is nitrogen-purged to prevent internal fogging while also protecting against contamination caused by fungal growth. With its ergonomic, non-slip body design, the BIN-20×80 is an ideal solution for long-range reconnaissance, surveillance, border security, and general military applications.

SPEC SUMMARY

Usage	Handheld / Tripod
Objective Lens Diameter	80mm
Optical Magnification	20X
Field of View	3.3°
Eye Relief	18mm
Prism Type	Porro Prism
Diopter Adjustment	+6D ~ -6D

MAGNIFICATION
20X

WEIGHT
<2000g

DIMENSIONS (mm)
305 x 235 x 99

Actual performance may vary depending on atmospheric conditions, temperature, humidity, fog, precipitation, and other environmental factors. A tolerance of ±10% applies to all parameters.
