

NVA-13

CLIP-ON NIGHT VISION SCOPE

P43 (Green)

P45 (White)

GENERAL FEATURES

NVA-13 is a lightweight and compact night vision clip-on system designed to enable the use of daytime optical sights in night conditions. Thanks to its unique optical design, it is smaller and lighter compared to similar systems, allowing users to achieve more effective imaging under low-light conditions during night operations. Its clip-on design enables mounting in front of existing daytime optics without requiring re-zeroing.

Equipped with a high-resolution image intensifier tube, the NVA-13 provides a reliable and practical night vision capability ideal for medium-range missions. An optional infrared illuminator offers superior target acquisition in complete darkness.

SPEC SUMMARY

Usage	Clip-On
Field of View	13°
Focus Range	30m - ∞
Image Color <i>(Optional)</i>	P43 (Green) / P45 (White)
Image Intensifier Tube	FOM <i>(Optional)</i> 1600 / 1800 / 2000 / 2200
Environmental Standards	MIL-STD 810G-H

OPERATING TIME
≥50h

WEIGHT
<620g

DIMENSIONS (mm)
195 x 75 x 85

*Performance values are based on moonlight conditions; actual image intensifier tube performance may vary due to ambient illumination level and environmental factors.
*A tolerance of ±10% applies to all parameters.
